Yeşilyurt-Malatya • makifsbusiness@gmail.com

SUMMARY

Software engineer experienced in computer and software engineering. He participated in project leadership competitions and took part in large projects.

WORK EXPERIENCE

Java Developer Intern - 3Pounds Istanbul (online)

Jun 2024 - Present

- During my Java internship, I gained experience in backend development with Spring Boot, creating RESTful APIs, database management (SQL), and writing unit tests. Additionally, I worked on debugging and performance optimization in existing projects.

Full-Stack Developer - TAK Eğitim Teknolojileri Malatya

Mar 2024 - Apr 2024

- I wrote Php Codeigniter as a work experience. We were making ERP software for an education portal

EDUCATION

Bachelor's degree in Computer Engineering

Sep 2022 - Jun 2026

Inonu University

- I am currently pursuing a Bachelor's degree in Computer Engineering at İnönü University. Throughout my education, I have gained in-depth knowledge in Java, Spring Framework, database management, and software development processes. Additionally, I have gained experience in software architecture and project management by working on team projects.
